DOCUMENT RESUME

ED 092 557 40 SP 008 152

TITLE	A Bibliography of Surveys in Physical Education and Recreation Programs for Impaired, Disabled, and Handicapped Persons.
INSTITUTION	American Association for Health, Physical Education, and Recreation, Washington, D.C.
SPONS AGENCY	Bureau of Education for the Handicapped (DHEW/OE), Washington, D.C.
PUB DATE	Oct 73
GRANT	OEG-0-72-5454-233563
NOTE	18p.
EDRS PRICE	MF-$0.75 HC-$1.50 PLUS POSTAGE
DESCRIPTORS	*Bibliographies; *Handicapped; *Physical Education; Physically Handicapped; *Recreation; *Surveys

ABSTRACT

This 114-item bibliography of surveys is limited to program status--surveys of of opportunities available, populations served, participation, problems, and needs of handicapped persons. None of the citations focus on activities, methods, facilities, philosophy, or other specific program areas as such. Places to obtain additional information are listed. The bibliography is divided into three sections which are arranged alphabetically by author: (1) general surveys, (2) professional preparation surveys, and (3) addendum. Also included is a topic index which refers to the citations in the bibliography by number. (JA)

A BIBLIOGRAPHY OF SURVEYS IN PHYSICAL EDUCATION AND RECREATION PROGRAMS FOR IMPAIRED, DISABLED, AND HANDICAPPED PERSONS

Individuals, representatives of different groups and personnel in various agencies are showing increased interest in the status of physical education, recreation, and related programs for impaired, disabled, and handicapped persons. National, regional, state, and local surveys have been conducted at different times to gather information from diverse settings about specific populations participating in adapted physical education, community/municipal/therapeutic recreation, sport, and athletic programs for participants with various handicapping conditions.

This indexed listing is for students, professors, researchers, practitioners, and other interested persons who wish to become more aware of what has gone on and what is currently happening nationally and in certain states in the areas of concern. This listing is delimited to program status--surveys of opportunities available, populations served, participation, problems, and needs; none focus on activities, methods, facilities, philosophy, or other specific program areas *per se*. A separate section lists surveys dealing with various aspects of professional preparation, certification, and training in these areas.

Additional information of this type and results of surveys that are unpublished or have had limited distribution can be obtained for some states from--

. State Department of Mental Health and/or Mental Retardation regarding statewide surveys and comprehensive plans for mentally retarded persons; recreation, physical education, and related areas were included in some of these state surveys and plans.

. State Departments responsible for developing and implementing comprehensive plans for individuals with such conditions as developmental disabilities and mental health problems.

. State Departments responsible for developing, amending, and implementing comprehensive outdoor recreation plans.

. State Departments of Education (Divisions of Physical Education and/or Special Education) regarding special surveys conducted about status of school centered physical education for impaired, disabled, and handicapped children and youth.

. Colleges and Universities with special programs in adapted physical education, corrective therapy, therapeutic recreation, rehabilitation, recreation for the ill and handicapped, physical education and/or recreation for the handicapped about state or regional surveys conducted in planning or evaluation phases of their programs. Several institutions receiving funds from the Division of Training, Bureau of Education for the Handicapped, Department of Health, Education, and Welfare have conducted such surveys as part of their overall program efforts.

. State Affiliates of groups such as Associations for Retarded Children, Associations for Children with Learning Disabilities, Easter Seal Societies for Crippled Children and Adults, and Cerebral Palsy Associations about surveys in which recreation, camping, play, physical activities, social enrichment, and related areas have been included.

. Special Recreation and Leisure Committees of some Governor's Committees on Employment of the Handicapped regarding special surveys about employment and participation opportunities for persons with various handicapping conditions in the recreation field.

Other centers which should be contacted for possible additional information of this type include:

. ERIC Processing and Reference Facility, 4833 Rugby Avenue, Suite 303, Bethesda, Maryland 20014.

. Therapeutic Recreation Information Center, Department of Recreation and Leisure Studies, University of Waterloo, Ontario, Canada.

. University Microfilms, 300 North Zeeb Road, Ann Arbor, Michigan 48106.

. Council for Exceptional Children Information Center, The Council for Exceptional Children, 1411 South Jefferson Davis Highway, Suite 900, Arlington, Virginia 22202.

. National Clearinghouse for Mental Health Information, National Institute of Mental Health, 5600 Fishers Lane, Rockville, Maryland 20852.

At the present time the staff of the Information and Research Utilization Center in Physical Education and Recreation for the Handicapped (IRUC) is collecting specific data about programs and resource persons in each of the states. This information is being compiled into state resource lists to provide guidance for persons introducing, expanding, or enriching specific activities in their programs. Additional information is to be included about background, education, experience, and competencies of resource persons.

Recipients and readers of this Bibliography are encouraged to communicate information about surveys that are not listed. Cooperation and sharing of this type stimulates exchange and interchange among persons in the field and promotes improved programs and opportunities for all impaired, disabled, and handicapped persons.

GENERAL SURVEYS

1. ACKNER, Ilene E. *Recreation for the Handicapped in New Jersey.* New Brunswick: New Jersey Association for Retarded Children (99 Bayard Street), 1973.

2.
